

UCONN

HONORS PROGRAM

A Guide for Current Students | 2015-2016

A message from the Director:

Congratulations and welcome to the University of Connecticut Honors Program! Membership in the Honors Program means that a world of opportunity awaits you, including Honors courses, the Honors residential communities, undergraduate research, study abroad, Sophomore Honors, and, most importantly, the Honors thesis and graduation as an Honors Scholar. As with any transition there will be lots of information, details, and deadlines coming your way as you begin. This guide was created to provide you with these things in an accessible format. I encourage you to review this material carefully so that you are prepared for what's to come.

Our goal in the Honors Program is to provide each of our students with high-quality experiences that enhance and enrich the stellar academic and co-curricular programs at the University of Connecticut. The University's commitment to you and your education is evident in the breadth and depth of support you will find among the staff of the Honors Program and your Honors faculty. The Honors Program staff takes great pride in providing personalized attention to our students. We have designed the Honors experience in a way that capitalizes on the benefits of a small-college experience—including close-knit academic and residential communities—in the midst of a top public research institution. (In 2013, UConn was ranked No. 19 by *U.S. News & World Report* for best public universities!) You will find the UConn hallmarks of excellence in research, a growing and dedicated faculty, culturally diverse aesthetics, and top-notch athletics to be integral elements of the UConn Honors experience. It truly is a wonderful place that you can now call home.

You are going places, and we are excited about helping you discover and navigate the path ahead. Please accept my best wishes for a wonderful career as a UConn Honors Scholar!

Sincerely,

Jennifer Lease Butts, Ph.D.

Assistant Vice Provost of Enrichment Programs and Director of the Honors Program

WELCOME TO HONORS! | Page 1

There's a transitional period to beginning college, but remember that you're surrounded by a community of staff and peers who are here to support you. To help you get started, check out these key points. They will serve you well throughout your college career.

Get to know your Honors advisor. Your advisor is here to help guide your journey through UConn and is a wonderful resource not just for your coursework, but also your future.

Get to know your faculty. UConn's faculty of world-renowned experts is growing every day. If you have questions, concerns, or just want to discuss a topic, go see them. (That's why they have office hours.) Be proactive and get to know your faculty. They want to help you. Getting to know at least one faculty member each semester will help you succeed in class and give you a source for future letters of recommendation.

Get to know your Honors and Enrichment Program staff members. You will find us on the fourth floor of the Rowe Center for Undergraduate Education (ROWE) or in the Buckley Programming Office. We are here to help answer questions, advise you, and point you in the right direction. You can learn more about our offices online (<http://enrichment.uconn.edu>).

Check your email and know your deadlines. You will receive important messages from Honors, UConn, and your faculty via your UConn email account. If you won't routinely check that account, forward your UConn email to a personal one you access regularly (<http://forward.uconn.edu/>). Deadline reminders are sent via email. Please remember that it is your responsibility to submit forms, documents, and assignments on time. If you have any questions about Honors deadlines, contact the main **Honors Program Office** in the Rowe Center for Undergraduate Education (ROWE) (Room 419 (860.486.4223 | honors@uconn.edu) or the **Honors Programming and Events Office** in the Buckley Hall Annex (860.486.1616 | honorsevents@uconn.edu).

Seek out opportunities. They're waiting for you! Honors students are leaders on campus, in research, in scholarship and fellowship competitions, in service organizations, at internships, and beyond. UConn offers a range of support to help you be a leader, too. Keep your eyes open for the Honors Programming weekly digital digest (*Updates in Honors*), postings on bulletin boards and social media, print advertisements, fliers on the doors of your faculty and the Enrichment offices, and yes, email.

What are some things that make being an Honors student special?

Honors Advisors | <http://honors.uconn.edu/honors-advising/>

Your Honors advisor will help you develop a plan of study and stay on course. You will also develop relationships with other faculty members, including your thesis supervisor.

Courses and Credit Options | <http://honors.uconn.edu/honors-courses-and-credit/>

You have access to smaller learning environments and interdisciplinary study, often led by a faculty member. You also frequently have the opportunity to take courses at the graduate level.

Priority Registration | <http://honors.uconn.edu/priority-registration/>

You'll be able to register for classes before other UConn students with your same credit standing.

Course Enrollment | <http://honors.uconn.edu/additional-benefits/>

You may receive permission to take a total number of credits that exceeds the University's per-semester limit.

Honors Community | <http://honors.uconn.edu/community/>

As part of the Honors Community, you'll enjoy housing, events, experiences, and organizations just for you.

Library Privileges | <http://honors.uconn.edu/additional-benefits/>

Enjoy lending times and limitation waivers comparable to those of graduate students. *(Bring your student ID to activate the service.)*

Library Research Carrels | <http://carrelreserve.lib.uconn.edu>

As a senior, you may reserve private library space while you work on your Honors thesis.

HONORS HOUSING | <http://honors.uconn.edu/housing/>

When you join Honors, you join the Honors community. To help foster your membership in the Honors community and support your academic, social, and cultural growth, the Honors Program encourages you to take advantage of Honors housing. First-year Honors students are assigned to Buckley and Shippee Residence Halls. After your first year, you can continue to live in Honors housing if you choose. Options include Brock Hall, Wilson Hall, and Connecticut Commons. Even though these are Honors housing communities, you still need to apply for housing each year through Residential Life (<http://www.reslife.uconn.edu/>). All of these Honors housing options are equipped with laundry facilities, furniture, high-speed Internet (included in your tuition), and study space. Additional details vary by building.

HONORS EVENTS | <http://honors.uconn.edu/events/>

An *Honors event* refers either to an event coordinated by the Honors Program or to one planned by another department, office, or school that is determined by Honors to be of academic, social, and cultural significance to your UConn Honors experience. Honors events inspire your full engagement beyond the classroom, introducing you

to organizations, new ideas, and opportunities that exist across campus. These events are also tied to Sophomore Honors, which is a voluntary commitment by you to attend events, take Honors credits, and stay dedicated to your studies from your first semester on. Attending at least five Honors events and submitting journal entries about each experience are part of the criteria for this award (see page 7 for details).

Where you'll learn about Honors Events

- » Email, "Updates in Honors," social media, posters, our website, and word of mouth.

Examples of Honors Events

- » Lecture series, film screenings, art shows, "Dinner and a Show" series, professional development workshops, and alumni panels.

Signing up for Housing

- » Housing is not guaranteed and space fills fast, so have options ready
- » Know your pick time and coordinate with your roommate(s) in advance
- » Explore the online application site beforehand so that you are comfortable with the system

HONORS STUDENT ACTIVITIES | <http://honors.uconn.edu/student-groups/>

Honors Council (HC) | uconnhc@gmail.com

An elected group of Honors students who work closely with Honors staff to serve as the student voice on Honors Program issues. HC offers several opportunities for leadership and committees for experience in a number of areas.

Honors Initiative for Prospective Students (HIPS) | uconnhips@gmail.com

A student-run group that introduces prospective students to Honors and coordinates Honors students' involvement in Husky-for-a-Day, a "day in the life" program offered by Admissions, pairing admitted students with current students.

Leadership in Action (LIA) | uconnlia@gmail.com

A student-run organization that creates opportunities for first-year students to develop leadership skills, brings distinguished leaders to campus, and participates in community service.

Peer Allies Through Honors (PATH) | path@uconn.edu

An organization that pairs first-year Honors students with Honors upperclass mentors to ease the transition to college.

Honors Across State Borders (HASB) | uchasb@gmail.com

An organization for Honors and non-Honors students to travel around the country working to impact communities in need, with a focus on an annual alternative spring break trip.

Honors in Business Association (HiBA) | uconnhiba@gmail.com

A student organization that hosts professional development, social, and alumni events for Honors students in the School of Business and students who are interested in business.

Civic Scholars Collective

A forum for Honors students majoring in or interested in the social sciences, humanities, and fine arts.

FIRST AND SECOND YEAR IN HONORS | Page 5

HONORS CREDIT | <http://honors.uconn.edu/honors-courses-and-credit/>

Honors credit is any type of an enriched course (or coursework) deemed to be of appropriate breadth and depth to qualify as Honors-level study. Honors credit may be earned several ways. More information on Honors credit options available each semester is published on the Honors website. To be eligible for Honors credit, students must earn a grade of at least a B- or above in the course. (P/F or S/U courses are not eligible.)

General Honors Classes Instead of a course open to the entire UConn population, these are specially designated courses (or sections of UConn courses). Most Honors courses have low enrollment—often 20 to 25 students as opposed to the large enrollment possible in typical lecture courses.

Discussion Sections A complement to a traditional lecture course, these are smaller, in-depth discussion groups with other Honors students.

Honors Core You're highly encouraged during your first or second year to enroll in one of these specially designed interdisciplinary Honors courses, most of which fulfill general education requirements. Earning Honors credit in a Core course is a requirement for achieving Sophomore Honors.

Departmental Honors Seminars Some departments offer seminars specifically for Honors students in their majors. These seminars may accompany required non-Honors courses, or they may stand alone. Stay in touch with your Honors advisor about offerings in your major department.

Signing up for Classes

- » **Meet with your advisor early to plan your upcoming semesters.**
- » **Know the requirements of your major.**
- » **Think about other enriching experiences that interest you, such as studying abroad, and plan accordingly.**
- » **Use My Academic Planner and prepare your cart before your registration time.**
- » **Have a four-year plan in case you're unable to get into a class right away.**
- » **Don't be afraid to contact a professor to request permission to join a full class.**

Honors Conversions This is an agreement between you and the professor of a non-Honors class to enhance the course to be worth Honors credit. Together, you formulate an Honors conversion project that exposes you to the class materials in a deeper sense. You must submit an Honors Scholar Course Conversion Agreement **within three weeks of the beginning of the semester.** Honors credit is conferred two to three weeks after the end of the semester, after the professor has verified successful completion of the conversion project and posted a grade.

Thinking about a conversion?

- » **Talk to your professor within the first few class meetings about converting the course to Honors.**
- » **Discuss your ideas about how to elevate the course, but be open to your professor's advice, suggestions, and requirements.**
- » **Communicate and collaborate with your professor during the semester.**

Who approves a conversion?

- » **Both your course professor and your Honors advisor.**

Where is the conversion form?

- » **Online: <http://honors.uconn.edu/honors-course-conversions/>**

UNIV 1784: First Year Experience | <http://honors.uconn.edu/academics/first-year-experience/>

A 1-credit course on a topic of interest to you, in which you engage in lively discussions and connect with your peers, facilitators, and instructors.

FACILITATING A FIRST YEAR EXPERIENCE

Each UNIV 1784 section is assigned upper-class Honors facilitators, mostly sophomores who receive special training. Facilitators prepare by enrolling in a course on college student development, gifted student development, leadership, and class management.

EGEN 3200: Peer Mentoring and Leadership If you're enjoying your UNIV 1784 experience, consider becoming a facilitator next year! EGEN 3200 trains those interested in facilitator leadership roles.

EGEN 3092: Peer Facilitation Practicum You'll enroll in this course once you've completed EGEN 3200 and been selected as a UNIV 1784 facilitator.

FIRST AND SECOND YEAR IN HONORS | Page 7

SOPHOMORE HONORS | <http://honors.uconn.edu/sophomore-honors/>

Sophomore Honors recognizes your full participation in the Honors Program—academically, socially, and culturally. The requirements for Sophomore Honors must be completed **by the summer after your fourth semester at UConn**. Your accomplishment will be recognized at the beginning of your junior year during the annual Fall Honors Ceremony. It'll also be noted on your transcript. Students who earn Sophomore Honors are more likely to graduate as Honors Scholars: a great reason for completing the requirements!

Credits used for Sophomore Honors may not be used toward your *Honors in the Major* credits for graduation as an Honors Scholar (see page 11 for details).

Sophomore Honors Requirements

- › Complete **16 Honors credits** (18 Honors credits if you don't take a UNIV 1784 seminar)
- › Earn Honors credit in **one Honors Core** course
- › Complete **Honors First Year Writing (ENGL 2011)**, for students who have not yet satisfied UConn's first year writing requirement
- › Attend **one Honors Thesis Workshop** (remember to sign the attendance sheet)
- › Attend **five Honors events** and submit event journals on time (<http://honors.uconn.edu/events/>)
- › Earn a **cumulative GPA of 3.400 or higher** (by the end of summer classes following your fourth semester)
- › **Apply** during the spring of your sophomore year. (Find the application online: <http://honors.uconn.edu/sophomore-honors/>)

Note: Students must earn a B- or higher in any course in which they plan to receive Honors credit.

FIRST AND SECOND YEAR CHECKLIST

<http://honors.uconn.edu/first-and-second-years/>

- Activate your Honors Program library privileges.
(Bring your student ID to the front desk of the library.)
- Remember to check your UConn email regularly.
(Or set it up to forward to a personal account.)
- Meet with your Honors advisor.
- Get to know your faculty members.
(And don't be afraid to go see them if you have problems!)
- Take advantage of professors' office hours.
- Join organizations and get involved in leadership opportunities.
- Attend Honors events and submit journals.
- Learn about research opportunities, including visiting the Office of Undergraduate Research.
- Work towards Sophomore Honors and apply for it by the end of your fourth semester.
- Talk to the Office of National Scholarships & Fellowships about competitions and awards. Explore the possibility of studying overseas.
- Learn more about some of the special programs available to Honors students (see page 13 of this guide), such as:
 - › Holster Scholars First Year Project
(apply in your first semester)
 - › Rowe Scholars Program
(apply as a rising junior)
 - › University Scholar Program
(attend an information session your sophomore year)
- Look for guidance from your peers and the Honors staff concerning signing up for housing and classes. The best advice? Be prepared with options.
- It's never too early to begin thinking about your thesis!

Get to know your Honors Advisor

- » **It's a great idea to meet with your Honors advisor by the end of your sophomore year to review the "Preliminary Plan of Study" form (<http://honors.uconn.edu/forms/current-student-forms/>). Although it's not due until early in your junior year, thinking about requirements early will help you develop your plan with ease.**

THIRD AND FOURTH YEAR IN HONORS | Page 9

JUNIOR/SENIOR FORMS AND CURRICULUM | <http://honors.uconn.edu/third-and-fourth-years/>

As an upperclassman, you'll enroll in Honors seminars or graduate courses, conduct Honors projects along with regular coursework via conversions or seminars, participate in research and independent study work (usually for Honors independent study credit), and complete an Honors thesis or creative project in your major or a related area. Individual departments may have particular major expectations, so **consult with your Honors advisor early in your junior year** (if you haven't done so already) to ensure you meet all departmental Honors requirements. You will work with your Honors advisor to develop an Honors plan of study that will fulfill the departmental Honors requirements (which must be approved by your advisor) and the University-wide Honors Scholar requirements (which are the same for all majors).

Honors Scholar Preliminary Plan of Study | <http://honors.uconn.edu/preliminary-plan-of-study/>

Before your junior year we recommend meeting with your Honors advisor to discuss your plans for completing Honors courses. By the start of your junior year you should be working with your advisor to map out your final two years as an undergraduate, including departmental requirements for graduation as an Honors Scholar, internships, research, or scholarships. Outlining the courses you need and want to take will help you schedule each upcoming semester. **You must submit an *Honors Scholar Preliminary Plan of Study* form the fall semester in which you begin your junior year.** The due date is based on your intended graduation date, not earned credits. (*Students in ACES or those studying abroad/away may petition for an extension if necessary.*)

Honors Scholar Final Plan of Study

The Preliminary Plan of Study will be confirmed in your ***Honors Scholar Final Plan of Study***, which you'll submit by the end of your next-to-last semester. You'll work with your Honors advisor to finalize the courses that will count toward graduation as an Honors Scholar and help you prepare for your last semester.

About the Honors Plan of Study forms

- » **The on-time submission of an Honors Plan of Study is required for continuation in the Honors Program.**
- » **Find the forms:** <http://honors.uconn.edu/current-student-forms/>

Planning for your thesis

- » **We encourage you to attend a thesis workshop or support program, which are offered several times per semester.**
- » **During your thesis, you'll register for a thesis course or a conversion for an "independent study" thesis course.**

Departmental Honors Seminars

Some departments offer Honors seminars to their majors in their junior or senior year. These courses provide for group discussions on special topics in the discipline and are great resources for the development of thesis topics. You're able to learn about research methods and thesis expectations with faculty members.

Graduate Courses for Honors

Some departments also allow you to take graduate courses for Honors; some even require it of Honors Scholars! A graduate course may contribute to the 12 credits of *Honors in the Major* needed for graduation as an Honors Scholar, and doesn't require a conversion form. While graduate courses will not show up on your transcript with Honors credit, you may receive approval from your Honors advisor to include the course as part of your *Honors Final Plan of Study*.

HONORS THESIS/PROJECT | <http://honors.uconn.edu/thesis-project/>

To graduate as an Honors Scholar, you must complete an Honors thesis/project based on original research or creative activity as defined by your academic discipline. Honors doesn't set specific criteria regarding the thesis format because the nature of "*research*" varies across majors and departments (e.g., an invention in engineering versus a poetry collection in English). However, **all Honors Scholars must submit a written report in hard copy** as part of what is produced. You're also strongly encouraged to submit a digital version to the Digital Commons. Begin thinking about your thesis topic early. By your junior year, you should have selected a topic and be ready to start working. Your Honors advisor is an important resource who'll offer direction on developing an idea and will ultimately approve your project. **By the fourth week of your last semester you must submit an *Honors Scholar Thesis Plan***, which indicates your advisor's approval of your idea as a viable Honors thesis.

Thesis Supervisor | <http://honors.uconn.edu/thesis-supervisor/>

You will be guided in your thesis/project by a faculty member in your department or related field. Depending on your major, you will usually secure your thesis supervisor during your sophomore or junior year, and you should select someone who is an expert in your topic area and with whom you are comfortable working. This may be your Honors advisor, but it usually isn't. In that case, you would still rely on your Honors advisor for academic guidance and support.

THIRD AND FOURTH YEAR IN HONORS | Page 11

GRADUATION AS AN HONORS SCHOLAR | <http://honors.uconn.edu/graduation/>

To graduate as an Honors Scholar, **you must complete a minimum of 15 Honors credits as well as fulfill the specific requirements listed below.** Please note, requirements are set by both the Honors Program and your major. Discuss them with your Honors advisor and map them into your *Honors Plan of Study* to be sure you don't miss any.

- › **Honors credits:** Complete a minimum of 15.
 - › ***Honors in the Major:*** Complete a minimum of 12 Honors credits (2000-level or above) in your major or a related field as approved by your Honors advisor, including at least 3 credits for your Honors thesis/project. *Honors in the Major* credits may not include credits used toward Sophomore Honors.
 - › ***Additional Honors credits:*** Complete an additional 3 Honors credits at any level, in any department. These additional 3 credits may have been used towards Sophomore Honors.
- › **Honors Breadth and Depth requirements:** Of your required 15 Honors credits, a) at least 3 credits must come from an Honors course (not a conversion, independent study, or thesis) with an Honors grading basis (listed on your class schedule) or a graduate course, and b) Honors credits must be taken in at least two subject areas (based on subject codes—ENGL, MATH, etc.) with at least 3 credits in each subject area.
- › **Thesis/Project:** Every Honors Scholar must complete a thesis/project that meets departmental standards for creativity and rigor. Every thesis/project must include a written product that is due to the Honors Office by the posted deadline.
- › **Grades for Honors credits:** Earn a grade of at least B- in any course on your *Honors Scholar Final Plan of Study*.
- › **GPA:** Earn a cumulative 3.400 GPA or higher by graduation.
- › **Departmental requirements:** Meet all additional departmental Honors requirements.

The Honors Medals Ceremony | <http://honors.uconn.edu/medals-ceremony/>

Your achievement of becoming an Honors Scholar will be celebrated at the Medals Ceremony, usually held the weekend before Commencement. You'll be recognized and receive an Honors medallion. Family and friends are encouraged to attend.

THIRD AND FOURTH YEAR CHECKLIST<http://honors.uconn.edu/graduation/>

- Stay in touch with your Honors advisor.
- Review all Honors and departmental requirements for graduation as an Honors Scholar.
- Submit the Honors Scholar Preliminary Plan of Study (*due in the fall of your junior year*).
- Develop and implement a thesis project idea.
- Select a thesis supervisor and check in regularly.
- Attend workshops, career fairs, alumni panels, and other opportunities to network and gain experience.
- Explore enrichment opportunities (i.e., University Scholar Program, research, scholarships).
- Submit the forms to prepare you for Honors Scholar graduation: <http://honors.uconn.edu/forms/graduation-forms/>
 - › Honors Scholar Final Plan of Study (*due by the end of your next-to-last semester*)
 - › Honors Scholar Thesis Plan (*due by the fourth week of your last semester*)
- Apply for graduation from UConn through the Student Administration System.
- Complete and submit an approved hard copy of your thesis, with a signed Honors Scholar Thesis Approval form, to the Honors Office (ROWE 419) by the deadline noted for your degree date.
- Strongly suggested: Follow the instruction at <http://honors.uconn.edu/digital-commons/> to submit a digital copy of your thesis to the Digital Commons.
- RSVP for the Honors Medals Ceremony and attend with your family and friends! (*Don't forget your graduation robe; no cap.*)
- Review Commencement information online.
- Complete the online Honors Senior Survey.
- Before you go: Be sure we have a personal email address for you so we can keep you updated on happenings in Honors and connect you with other alumni and resources.

ENRICHMENT OPPORTUNITIES | Page 13

Holster Scholars First Year Project | <http://honors.uconn.edu/holster-scholars/>

Named for its benefactors, Robert '68 and Carlotta '68 Holster, this opportunity affords curious first-year Honors students the chance to engage in research at the beginning of their undergraduate careers through in-depth, self-designed summer projects. Benefits include up to \$4,000 in research funding; faculty and staff mentoring; enrollment in a 1-credit course to plan the project; peer support from former Holster Scholars; and experience designing, completing, and presenting creative work. (Apply during your first semester!)

Rowe Scholars Program | <http://honors.uconn.edu/rowe-scholars/>

Initially an opportunity that began in a student's first year, generous support from Drs. John and Valerie Rowe has expanded the John and Valerie Rowe Health Professions Scholars Program to allow applications from rising juniors. Rowe Scholars are Connecticut students from underrepresented backgrounds who intend to pursue health care careers. Scholars benefit from mentoring, educational enrichment, community service, professional development, and funding support.

University Scholar Program | <http://universscholars.uconn.edu>

This highly selective and prestigious program offers students the flexibility and freedom to pursue their intellectual and/or creative interests during their last three semesters. Admission is offered on the basis of a detailed application submitted during the fall semester of the junior year. Applications are accepted from any UConn undergraduate, and no more than 30 are selected annually. Honors students chosen as University Scholars will often use their University Scholar projects as their Honors thesis projects. (If you're interested, attend an information session during your sophomore year to learn more.)

A University Scholar...

- » **Designs an intensive, focused University Scholar project that culminates in a high-level piece of scholarship or creative accomplishment.**
- » **Selects courses that are interdisciplinary or provide more in-depth investigation into his/her disciplines and that support his/her University Scholar project and academic goals.**

Office of National Scholarships & Fellowships | <http://onsf.uconn.edu/>

UConn students are finalists and winners in some of the nation's and the world's most prestigious scholarship and fellowship competitions, and it's due to the mentorship and support from the ONS&F. Its director and staff work closely with candidates across UConn who are applying for opportunities that require institutional endorsement (such as Rhodes or Truman) or for any other national competitive award. You should stop by the ONS&F early in your undergraduate career to discuss your eligibility. Even if you have sufficient funding for your UConn degree, these awards can benefit your academic and professional career and may fund your future graduate plans. The application process itself will help you articulate your goals and develop your scholarly potential.

Office of Undergraduate Research | <http://ugradresearch.uconn.edu/>

Research means scholarly or creative work that leads to new knowledge. Undergraduate research will teach you to hone your problem-solving and critical-thinking skills, no matter your field of study, and will also help you build relationships with experts in your field. There are opportunities (on and off campus) to engage in research at any stage of your undergraduate career, and the OUR is there to help. Offering workshops, funding opportunities, and access to information and support, the OUR also sponsors UConn's *Frontiers in Undergraduate Research Poster Exhibitions*, where undergraduate researchers present posters that showcase their research and/or creative projects.

Individualized and Interdisciplinary Studies Program | <http://www.iisp.uconn.edu/>

If UConn doesn't offer a degree in your area of interest, or if your interests cross disciplinary divides, you have the opportunity to create your own major. Faculty advisors and an individualized major staff advisor will help you develop a unique plan of study that's academically sound and rigorous, incorporating thematically focused credits at the 2000-level or higher from at least two UConn departments. Acceptance into the program is based on submission of a formal proposal (due before you begin your last 30 credits) and approval by faculty advisors and an admissions committee. (School/college restrictions may apply.)

Pre-Professional Advisors | <http://prelaw.uconn.edu/> | <http://premed.uconn.edu/>

The pre-professional advisors assist any UConn student interested in exploring careers in law, medicine, or dental medicine. These professional school experts offer advice and support regarding your professional school application process (from choosing schools to preparing a personal statement), preparation for the professional entrance exam, and selection of the best program for your career goals. In your first and second year you are encouraged to attend events and workshops. If you intend to begin professional school immediately after graduation, begin discussing your plans with these advisors no later than your second semester. If you decide after you've graduated that professional school is right for you, don't worry! The pre-professional advisors work with alumni, too. *(These centers are separate from the Special Program in Law and Special Program in Medicine/Dental Medicine, which required application for admission before your enrollment at UConn.)*

Education Abroad | <http://www.abroad.uconn.edu/>

UConn offers more than 300 education abroad programs in 65 countries on six continents. Study for a summer, semester, or academic year in your major or minor, conduct research or participate in an internship, and receive full credit and grades for your work. Of the hundreds of education abroad opportunities available through UConn, several were designed with Honors students in mind, awarding Honors credit for successful

completion. Some even place you in an Honors community at your host institution. If your education abroad program doesn't offer Honors credit, talk with your Honors advisor to find out about ways in which you can enrich your overseas study to earn Honors credit (including course conversions).

If You are Interested in Education Abroad

- » **Talk with your Honors advisor early to find out how study abroad will fit into your plan of study.**
- » **Often, financial aid travels with you. Visit the Office of Education Abroad to learn about funding options and whether or not awards you already have will apply. Some programs will be equal to the cost of your UConn tuition.**
- » **Attend an Education Abroad fair or information session to get started.**

Education Abroad/Away for Honors Students | <http://honors.uconn.edu/abroad-away/>

UConn in Cape Town, South Africa Partner with a non-governmental agency addressing issues of social injustice impacting women, children, workers, and the environment.

UConn Neuroscience in Salamanca, Spain Summer Program An introduction to neuroscience at an international level, this five-week program is taught by international scientists and includes coursework in Spanish.

UConn Archaeological Field School in Armenian Prehistory Summer Program Join archaeological excavations and environmental reconstructions at two Stone Age sites in Armenia for first-hand experience in site survey and lab techniques.

University College Utrecht, The Netherlands Enjoy liberal arts education at a small international residential Honors college, with English instruction and Honors credit at a low cost.

University College Maastricht, The Netherlands Specifically an Honors liberal arts and sciences program, this English language experience offers challenging academics in a close-knit community.

Social Entrepreneur Corps in Guatemala Summer Program Utilizing a global strategy for combating poverty, this eight-week-long internship places students with field professionals and social entrepreneurs to help develop and sustain micro-consignment supported businesses.

National University of Singapore Explore broad-based curriculum at this top-ranked university; attractive to students with a wide variety of interests.

UConn Honors Congressional Internship Open to any junior, senior, and occasional sophomore, this spring D.C. internship places students with members of the Connecticut Congressional Delegation. (For information, email honorsevents@uconn.edu.)

HONORS PARTICIPATION REVIEW

Student records are reviewed at the end of each academic year for successful participation in Honors coursework as demonstrated through earned Honors credit posted on the student's transcript. Those who earned less than 6 Honors credits during any given academic year are sent a notice of their eligibility for dismissal for reasons of non-participation. Students may appeal this decision based on their involvement in Honors credit that is not yet posted on their transcripts, completion of graduate courses (for which "Honors credit" does not post to their transcripts), or in some cases, future plans in the program. (Exceptions may also be made for students involved in off-campus experiences for the academic year, such as study abroad or internships.) Students must complete the required form referenced in the notice by the deadline (usually the first week of the fall semester) to be eligible to remain in the Honors Program.

HONORS ACADEMIC REVIEW

The academic records of all enrolled Honors students are reviewed at the end of each academic year to determine standing:

In Good Standing: Students in the Honors Program will be considered to be "in good standing" whenever their cumulative grade point average (GPA) is at least 3.400. (The "good standing" notation on your transcript refers to your University standing and not your Honors standing.)

Probation: Students with cumulative GPAs that fall between 3.399 and the required minimum GPA to remain in Honors for the student's academic level will be notified of their placement on Honors probation.

Dismissal: Each summer students will be notified of their eligibility for dismissal from the Honors Program based on the following formula:

- › First-year students who do not have a cumulative GPA of at least 3.000 by the end of their first year will be eligible for dismissal.
- › Sophomore students who do not have a cumulative GPA of at least 3.150 by the end of their second year will be eligible for dismissal.
- › Juniors who do not have a cumulative GPA of at least 3.300 by the end of their third year will be eligible for dismissal.

Appeal: Students may appeal their dismissal from Honors based on extenuating circumstances. The appeal form referenced in their dismissal letter must be submitted by the deadline.

Readmission: Students who have been dismissed because of a low cumulative GPA may apply for readmission to the Honors Program as soon as their cumulative GPA either equals or exceeds 3.400, according to application guidelines.

HONORS STATUS AND UNIVERSITY STATUS

Probation: An Honors Program student found to be responsible for academic misconduct under the University of Connecticut Student Code (“Student Code”) will be placed on Honors probation. Upon consideration of the student’s record of academic misconduct and/or the nature of the academic misconduct involved, the student may also be eligible for dismissal from the Honors Program. The Honors Program will provide the student with written notice of its decision regarding his/her dismissal from the Honors Program.

Suspension: When an Honors Program student is suspended from the University of Connecticut for any length of time for a violation of the Student Code, the student is immediately dismissed from the Honors Program. Upon the student’s return to the University after serving the term of suspension, the student may petition for readmission to the Honors Program.

Expulsion: When an Honors Program student is expelled from the University of Connecticut as a result of a violation of the Student Code, the student is immediately dismissed from the Honors Program.

Honors Requirements

SOME FREQUENTLY ASKED QUESTIONS | Page 19

What does “Catalog year” mean? | <http://honors.uconn.edu/requirements-and-catalog-year/>

Because policies published in the Catalog evolve between academic years and schools/colleges, your Catalog year is the version of the Catalog that is pertinent to you. It outlines the policies, regulations, and requirements that will apply to your successful graduation from UConn. Your Catalog year is usually based on when you join a specific school/college. Changes to your academic plan, such as switching your school/college, will affect your Catalog year. If you have questions, just ask!

I really want to get involved right away with opportunities around campus. Where should I start?

Talk to your peers (including your UNIV 1784 facilitators) and the Honors staff (especially Programming), connect with us on social media, and visit <http://honors.uconn.edu/community/> and <https://uconntact.uconn.edu/>.

I’ve heard about various ceremonies. What are they? | <http://honors.uconn.edu/ceremonies/>

- › **Fall Honors Ceremony:** Occurring in the early part of the fall semester, this event celebrates two different types of achievements. Those juniors who have earned Sophomore Honors are recognized, along with any UConn student who received a named award.
- › **Scholars Day:** Occurring in mid-spring, this event recognizes any UConn student who achieved the requirements for the New England Scholar or Babbidge Scholar awards, based on semester GPAs for the recent calendar (not academic) year.
- › **Medals Ceremony:** Occurring the weekend before Commencement, this event recognizes those seniors who have successfully completed the requirements for graduating as an Honors Scholar.
